2 October 1956

MEMORANDUM FOR: Contracting Officer

SUBJECT : Expediting Assistance Required for Contract A-101 - R-W

REFERENCE : SAPC-9584, dated 1 October 1956, same subject

25X1A

25X1A 1. On this date, I discussed with [REDACTED] Director of the new combined Armament-Electronics Division of the Bureau of Aeronautics, the possible need for assistance in obtaining five sets of certain APR-9 and APR-13 tuning units for use in System Four procurement from R-W. [REDACTED] said he would be glad to render any assistance desired and that he would backstop the request in the Bureau when it comes to his attention. He can be reached on Extension 64324, Department of Defense, and any contact should refer to our previous conversations.

25X1A 2. [REDACTED] was also advised that a couple of these units had previously been released through the good auspices of [REDACTED] and both he (Chief of the Bureau) and [REDACTED] the Assistant Chief for Research and Development, are thoroughly familiar with the Project for which these are to be used.
